Perum. Bumi Etam Jl. Kenyah No.152 Sangatta, East Kutai, East Kalimantan, Indonesia

Informatics Engineering graduate from Telkom University with a strong passion for front-end development and UI/UX design. As a junior front-end developer, I have a solid foundation in HTML, CSS, and JavaScript, allowing me to build visually appealing and user-friendly web applications. My background in design strengthens my ability to craft exceptional user experiences. I am actively seeking opportunities to contribute to impactful projects within a collaborative team, where I can bring fresh ideas, creativity, and a strong work ethic. A quick learner, I am eager to grow and excel in a forward-thinking environment that values both innovation and technical expertise. I am currently open to full-time roles, whether remote or hybrid.

Work Experiences

Front-End Developer - (Freelance)   Sep 2024 – Present

Pondok Pesantren Al-Hidayah Karangsuci – Purwokerto, Indonesia

Educational Institutions

- Developed a modern company profile website using Next.Js and TypeScript, ensuring optimal performance, type safety and responsiveness across various device.
- Utilized the Atomic Design Pattern to create a modular component architecture, enabling reusable and maintainable UI Components.
- Implemented the Scrum methodology using Jira for project management, collaborating with the team in weekly sprints, backlog grooming, and daily stand-up meetings.
- Used Git for version control, ensuring code consistency and smooth collaboration between team members.
- Managed the project repositories on Github, enabling pull request, branching, and code reviews to maintain high code quality

Front-End Developer - (Internship)   Jun 2020 – Jul 2020

CV. Eldev Solusindo – Purwokerto, Indonesia

IT Consultant

- Developed a responsive and user-friendly real estate marketing website using HTML, CSS, PHP & Javascript.
